

9 Target Combat Shotgun: Very Basic (for 3~8rd guns.)

1. Shooter begins with shotgun held in ONE-HAND and down at full arm length.
2. Engages two targets in the open, then RUNS to cover/structure
3. Engages targets from both sides without stepping out of "the box."
4. RUNS to 2nd cover/structure and repeats.
* All reloading is done behind barricades. *

Time starts when shooter "makes his move" and stops when last target is down/hit.

Performance Goals:

Under 1 minute, with 1~3 shells still in the gun when last target is knocked down.

Shooter uses right-hand AND left-hand techniques as appropriate.
