

Organized Zombies (aka Jack-Booted Thugs)

These zombies present a difficult target because significant portions are Armored.

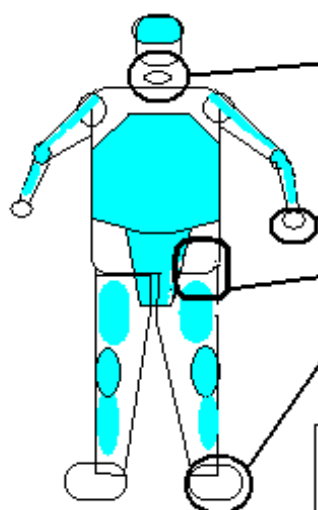

Color shows where Jack-Booted Thugs are Normally Armored

Vulnerable: Neck and Lower-Face, Hands, Feet/Ankles,
Hip/Upper-Thigh/Buttock-area, Armpit-area.

Even with a shotgun you must AIM to hit these targets.

Where To aim: Jack-Booted Thugs

Probably Armored

Remember...
AIM
Every Shot!!

SHOTGUN

Any "Shot-Loads"

Heavy Field loads
of No.6 and up to
No.4-Buck are best.

Important Note!

If you resist and can't "win",
you and all occupants will die!

Most "Shot" type loads will not
penetrate body armor...even if a
knock-down is achieved.

Slugs or Round-Balls of 3/4 oz or more
will be debilitating with any "solid" hit.

Skeet and Sporting Clays, (not Trap) are the
best common forms of shotgun practice.

The Jack-Booted "Zombie" is THE most likely (and deadly) type of badguy to attempt "Home Invasions" which normally occur in the early morning hours. They attack with large numbers and in a well-organized fashion. They are known to attack "WRONG ADDRESSES" with alarming frequency.

If you are indeed "innocent" you are **Legally** entitled to resist such an attack with lethal force!
